Summary:

Navy veteran and graduate of Eleven Fifty Academy who is looking for a Web Developer position with a small to mid-size company that allows me to use my skills and knowledge, while I continue to develop professionally.

Technical Skills:

Languages: HTML, CSS, JavaScript/TypeScript
Frameworks: React, Angular, Material
Databases: PostgreSQL
Deployment: Heroku, Firebase
Other: Git, GitHub, Node.js, APIs, Full stack CRUD applications

Education and Professional Licenses:

- Eleven Fifty Academy: JavaScript Oct 2019-Apr 2020
- Indiana Life & Health Insurance License: Residential Producer Individual-#3115308 (inactive)
- NMLS #1510591; State Loan Originator Licenses (AL, AZ, FL, IN, KT, MO, NC, OH, TN, VA, WA) (inactive)

Development Projects:

- **FishBook:** Made with React and NodeJS, is a simple photo-storing app that allows users to catalog their catch
- **Film Street:** Made with Angular8 and Material UI, is an app that allows users to search a movie database and create a watchlist based on user preferences
- **Weather App:** Created with JavaScript and allows users to check the weather of anywhere in the world
- **CSS Creature:** An animation created mostly with CSS @keyframes
- **Army Flight Logbook (in development):** Contributor to a team tasked with converting an existing paid service to a new platform, built with React and Material UI

Professional Experience:

Learning Assistant, Eleven Fifty Academy, Indianapolis, IN, May 2020 - Current

- Provides technical support to students participating in Eleven Fifty's JavaScript Program
- Assists with debugging of student projects and provides resources for discovering solutions
- Monitors student performance and provides feedback as needed
